Computer Science Program (OIC), IS and ITE Allied Program

Prof. Daniel P. Dellosa
Thesis 1 Course Adviser
College of Computing and Information Sciences

Dear Sir:

Good day!

Ryan Corda, Jade Daniele Bantilo, Paul Angelo Derige, Shiloh Eugenio, bona fide fourth-year **Bachelor of Science in Computer Science Major in Application Development** students, are writing to formally request your approval to change the title of their thesis from **"DEVELOPMENT OF BULLYPROOF: A MOBILE APPLICATION IN REPORTING BULLYING INCIDENTS FOR THE UNIVERSITY OF MAKATI USING CLASSIFICATION ALGORITHM"** to **"DEVELOPMENT OF BULLYPROOF: A MOBILE APPLICATION IN REPORTING CYBERBULLYING INCIDENTS FOR THE UNIVERSITY OF MAKATI USING LOGISTIC REGRESSION ALGORITHM"**.

The primary reasons for this proposed change are:

1. The technical adviser recommends focusing solely on cyberbullying incidents for the study. He believe that if different types of bullying incidents are addressed, the study will become too broad and unfocused. Additionally, the technical adviser notes that it will be difficult to obtain a comprehensive dataset that covers multiple types of bullying across various contexts.
2. The technical adviser recommends finding a specific classification algorithm to put on our title, use in our thesis project, and test with a confusion matrix.

A brief summary detailing the changes in the scope and focus of the thesis, which justify this title change, is attached. The proponents believe that the new title will enhance the clarity and impact of the thesis. We respectfully seek your approval for this modification and are available to discuss this further or provide any additional information if needed.

We are hoping for your favorable action on this matter. Thank you for your time and attention.

Very truly yours,

Ryan P. Corda
Student

Jade Daniele M. Bantilo
Student

Paul Angelo Derige
