EMPLOYMENT HISTORY

Assistant Professorial Special Lecturer I

September 25, 2023 - Present

Polytechnic University of the Philippines Taguig Campus

Aside from his full-time job in the industry, Steven is also teaching IT subjects in his alma-mater. He aims to educate and empower students to be industry-ready and to raise the quality of education in his beloved university.

Tools & Automation Specialist

July 4, 2022 - Present

Google Operations Center

From being a vendor, Steven was moved to an Alphabet group of companies as a senior developer, where he not only developed software but also conducted training and mentored junior developers.

Full Stack Developer

October 26, 2019 – July 1, 2022

Concentrix for Google

Steven has worked with Google Engineers in a top-of-the-line software development environment creating web applications from the ground up applying the industry's best practices in full SDLC.

Software Developer

October 9, 2017 – October 23, 2019

Amdocs – Philippines

Steven was in-charge of support and maintenance to multiple applications for partner clients, Singtel, a giant telecommunications company based in Singapore, and Optus a major mobile network operator based in Australia.

Software Engineer

April 25, 2016 – September 29, 2017

Infor PSSC – Philippines

Steven participated in the development of [GFC](#) that is used to automate financial data and reports. He successfully revamped the user interface from old-fashioned to a modern, fluid, theme-based UI.

Engineer

August 5, 2013 – April 22, 2016

Samsung R&D Philippines (SRPH)

Steven took part in the commercialization of 200+ android projects in collaboration with other Samsung R&D centers worldwide such as Korea, Vietnam, India, New Zealand and Australia. During his tenure Steven proposed seven ideation projects two of which are graded A. He was also involved in major projects such as [Samsung 321](#) which is installed in more than 10 million devices, [Custom Fingerprint Command\(S-Finger\)](#), and [Advance Starbucks Drive Thru System](#), a collaboration project between Samsung R&D Philippines and Starbucks Philippines.

Web Developer

May 21, 2012 – January 31, 2013

Optimizex Inc.- Philippines

Steven developed multiple web apps to US-based clients together with a UX team to deliver user-centric apps, business analyst to provide analytics, and SEO specialist to improve page ranking.
