My first day of work immersion in Barangay Palingon Tipas (February 11, 2025) started with an orientation. I was then assigned tasks focused on organizing holiday decorations. This involved carefully sorting Christmas balls, separating damaged from undamaged ones, and then putting Christmas boxes into a provided plastic bag. I also cleaned the workspace and unplugged industrial fans before leaving, ensuring safety. Overall, my first day provided a productive introduction to the work environment and my immersion program. I look forward to continued contributions to the barangay.
