College of Computing and Information Sciences

Instructions for Documentation during the Presentation:

1. **Attire**: Ensure that all participants are dressed appropriately for the presentation, adhering to the required dress code.
2. **Document Activities**: Capture photographs throughout the presentation to ensure all activities are properly recorded.
3. **Record Ingress and Egress**:
   o **Ingress**: Document the arrival and setup process, including the arrival of participants and the preparation of equipment.
   o **Egress**: Record the conclusion of the presentation, including the disassembly of materials and the departure of all participants.
4. **Evaluate the Presentation**:
   o Document the evaluation process by capturing feedback from the client representatives.
   o Record any assessments or comments regarding the presentation's success and the project's overall performance.
5. **Group Photo**:
   o Take a group photo of the client representatives together with the researchers at the conclusion of the presentation. This photo should reflect the successful collaboration and serve as a visual record of the event.

Please ensure that all aspects of the presentation, from start to finish, are properly documented for future reference. Check the folder for further instructions and templates to guide you through the process.

Signatories:

The sections provided represent the details of individuals and organizations involved in the certification process for a project presentation. Here's an explanation of each role:

1. **Client Name(s)/Company Name**: This refers to the company or organization that the project was developed for. The "Client Representative's Full Name" and "Position" identify the specific person within the organization who is overseeing or responsible for the project.
   o **Client Representative's Full Name**: The name of the person from the client organization who interacted with the project team.
   o **Position**: The official job title or role of the client representative.
   o **Organization**: The name of the client company or organization.
   o **Address**: The address of the client's company or organization.
2. **Supervisor/Project Guide**: This refers to the academic or professional supervisor who guided the researchers or project team throughout the development of the project.
   o **Name**: The full name of the supervisor or project guide.
   o **Position**: The supervisor's role or title.
   o **Department**: The department within the institution or organization to which the supervisor belongs.
3. **Client Representative**: This refers to the client representative who formally approves the completion of the project. They may also sign the certificate to confirm that the project meets the necessary requirements.
   o **Name**: The full name of the client representative who is responsible for signing the certificate.
   o **Position**: The official job title or role of the client representative.
   o **Organization**: The name of the client company or organization.
   o **Signature**: The signature of the client representative.
   o **Date**: The date on which the certificate is signed by the client representative.

CERTIFICATE OF PRESENTATION

This is to certify that Bantilo, Jade Daniele M., Corda, Ryan P., Derige, Paul Angelo, Eugenio, Shiloh B,   presented their thesis project entitled "***BULLYPROOF: A MOBILE APPLICATION FOR REPORTING CYBERBULLYING INCIDENTS FOR A LOCAL UNIVERSITY IN MAKATI USING LOGISTIC REGRESSION ALGORITHM"***. The client representative(s) have confirmed that the project is fully functional (100%) and meets the software's intended capabilities, fulfilling the business requirements of the organization. The presentation, held on March 10, 2025, either via <Google Meet or at the Administration Building of the University of Makati>, was considered successful. It effectively demonstrated the project met all the client's requirements, receiving positive feedback from the client representatives.

The following modules and components are demonstrated:

Mobile

1. **User Authentication** ensures that only authorized users can access the system. Users must create an account by providing their full name, UMAK email, contact number, and password.

2. **Incident Report** allows users to report cyberbullying incidents through the mobile app. Complainants can give detailed information, such as the people involved, what happened, and any evidence like screenshots.

3. **Image-to-text Conversion** simplifies the reporting process by allowing complainants to upload images containing text, such as screenshots of online messages, and convert them into readable text.

4. **Real-time Notification** ensures that complainees receive instant updates on their reports, keeping them informed about the status of their incident report and any actions taken.

5. **History of Incident** Reports allows users to access a complete record of all previously submitted reports.

Website

1. **Dashboard** provides admins with key statistics such as the total number of users, incidents reported, reports under investigation, resolved cases, and reports awaiting confirmation.

2. **Incident Management** allows the director and admin to access and manage all submitted reports.

3. **Email Management** allows the the director and admin can create custom email content for complainants, complainees, and their respective departments.

4. **Appointment Management** allows the director and admin can schedule appointments between complainants, complainees, and their respective departments to discuss incidents.

5. **Summary Appointment** allows the director and admin can view a complete history of all appointments.

6. **Calendar** offers a monthly, weekly, or daily view of scheduled appointments.

7. **User Management** allows the director to activate or deactivate user accounts.
