WORK EXPERIENCE:

Freelance Web Developer
June 2024 – Current
- Developed full-stack web applications using Laravel PHP framework, JavaScript, HTML5, CSS3, and Bootstrap, resulting in efficient and scalable solutions.
- Designed websites, portals, and large-scale web applications for multiple clients.
- Tested and maintained core product software to provide optimization and reliable functionality for end users.
- Created detailed wireframes and interactive prototypes using Figma, effectively communicating design concepts to clients and reducing revision cycles.
- Designed and maintained MySQL databases with optimized queries, ensuring smooth data management and fast response times

Customer Service Representative
SMART
June 2023 — July 2023
R3, Power Plant Mall, Rockwell Center, Makati City
- Assisted customers with troubleshooting and resolving issues related to pocket Wi-Fi, Smart Bro, and SIM card registrations.
- Provided technical support and guidance to ensure customers' devices were functioning correctly.
- Delivered excellent customer service, ensuring customer satisfaction through effective problem-solving and communication.

Social Media Content Editor Intern (On-the-Job Trainee)
Pateros Catholic School
March 2023 — June 2023 (300 hours)
G3V8+XW2, B. Morcilla St., Pateros, Metro Manila
- Edited images to enhance quality and visual appeal for various school publications and marketing materials.
- Collaborated closely with school staff and administrators to ensure accurate and timely communication through social media.
- Produced and edited videos for the school's Facebook page, ensuring that content was engaging and aligned with the school's brand.
- Developed proficiency in photo and video editing software, including Adobe Photoshop and Adobe Premiere Pro.

Server Intern (On-the-Job Trainee)
IMC Kavino Restaurant
December 2019 — January 2020 (300 hours)
Jupiter Place, 136 Jupiter St., Makati City
- Served orders to customers, ensuring accuracy and delivering a positive dining experience.
- Assisted in food production activities, preparing and creating a variety of dishes according to restaurant standards and recipes.
- Greeted guests upon arrival and provided exceptional service throughout their visit to encourage repeat customers.

PROJECTS:
Lead Programmer
Real LIFE BGC Scholarship Application System | Software Engineering Project
October 2023 – May 2024
- Led the development of a complete scholarship application system, building both frontend and backend using Laravel PHP framework with MySQL database, styled with Bootstrap and custom CSS/HTML, enhanced with JavaScript for interactivity.
- Built dynamic forms for scholarship applications with real-time validation.

- Designed a responsive dashboard for tracking application status and managing applicant data.
- Built a secure user authentication system and role-based access control for multiple user types.

Accenture

Accenture Uptown Mall BGC

Tower 2 Office

Dear Hiring Manager,

I am excited to apply for the Web Developer position at Accenture. With a solid foundation in HTML, CSS, Bootstrap, JavaScript, Laravel, and PHP, I have developed a range of web applications that solve real-world problems. I am eager to bring my skills and passion for web development to your team.

As a freelance web developer, I have successfully completed several projects that showcase my expertise. Recently, I developed a Motorcycle Rental System, which allows users to browse available motorcycles, manage bookings, and process payments. This project required me to utilize my skills in PHP and Laravel for back-end development while ensuring a responsive and user-friendly interface with HTML, CSS, and Bootstrap. Another significant project I worked on was a Faculty Management System. This application streamlined administrative tasks for educational institutions by enabling faculty members to manage their schedules, courses, and student interactions efficiently. My experience with JavaScript helped enhance the interactivity of the user interface, making it intuitive for users. I believe that my hands-on experience with both front-end and back-end development aligns well with your needs. I am committed to writing clean, efficient code and continuously improving my skills to stay current with industry trends.

I am genuinely enthusiastic about the opportunity to contribute to the Web Developer role at Accenture. I would love to discuss how my background and projects can add value to your team. Thank you for considering my application.

Best regards,

Shiloh Eugenio
